December, 2011

Department of Public Works

The Department of Public Works consists of four full time people and one seasonal person. Our seasonal person usually works from May until the end of the year, to help with brush and yard waste removal. This department is responsible for taking care of the streets and sidewalks; repairing broken water mains; parks; picking up brush and yard waste, and many other miscellaneous responsibilities.

During the Winter months, please keep in mind our Sidewalk Snow Removal Ordinance as follows: All persons owning or occupying any lot or part thereof fronting any street where sidewalks are or may be hereafter constructed shall clear off and remove all accumulating ice and after an accumulation of two (2) inches of snow from such sidewalk so as to expose the full purpose thereof within thirty-six (36) hours after the end of a snow or ice event. This is for the safety of all.

Although not required by ordinance, we encourage you to utilize off street parking during the winter months, especially during heavy snow fall.

Starting January 1st, we will begin the annual water meter replacement program. If your meter is older than 10 years, we will be scheduling a time to replace your meter.

We will be having a leaf pick up schedule for 2012. Please watch the website (www.jonesville.org) for more information.

Everyone have SAFE & HAPPY HOLIDAYS!!!

Mike Kyser, Superintendent of Public Works
